

Pump solutions for Cryogenic systems

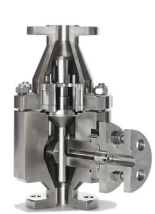

sefco

Cryogenic Pumps, Skids and Systems

Pumpab is a unique pump partner. With experienced engineers and partners we offer the best pump solutions to make your plant SAFE. CRYOGENIC application is one of our main fields of expertise. With SEFCO Pumps we offer applications for LOX, LIN, LAR, LNG and most other cryogenic fluids. We also supply pumps for other ASU processes such as water circulation for vaporizers. We only work with well know partners that offer engineering as well as support.

Pumpab also offer complete range of valves related to pumps, pump skids and smaller pump systems complete with installation and control systems. The valves are from high quality manufacturers including cryogenic approvals as well as design for O2 service according EIGA.
